Landscape Cascade

Landscape Cascade | Sandstorm

Made in 2021, this 8 foot woven leather tapestry hangs at Auto Camp hotel in Joshua Tree. Commissioned by Narrative SF, this piece twists together tones from the surrounding landscape into the design. It hangs freely from a brass fixture so that the fringe blows subtly in the wind.

Based on experimentation and material integrity, each tapestry is designed by our founder Brit Kleinman. They are all one of a kind and embrace a visible touch of the hand.

We welcome commissions of all scales including large site specific installations.
