

AVO

AVO activates your senses through design.

We value building community, exploring materiality and igniting curiosity within your space.

Our designs have fearless patterns, cultivated colors, and sensual textures.

AVO specializes in hand dyed leather, woven rugs, tapestries, and surfaces for interiors.

All of our work is made to order with exacting craftsmanship.

Our patterns are hand painted by our specialty artisans in New York City.

Collaborations

Good things happen when we come together.

Collaborations highlight our signature style, while artfully expanding our boundaries into new mediums.

Asher Israelow

A special edition Lincoln Lounge Chair and Lincoln Lounge Stool collaboration between NY based brands Asher Israelow and AVO. With hand dyed leather and a relaxed posture, these chairs are built for sophisticated comfort.

Lexus

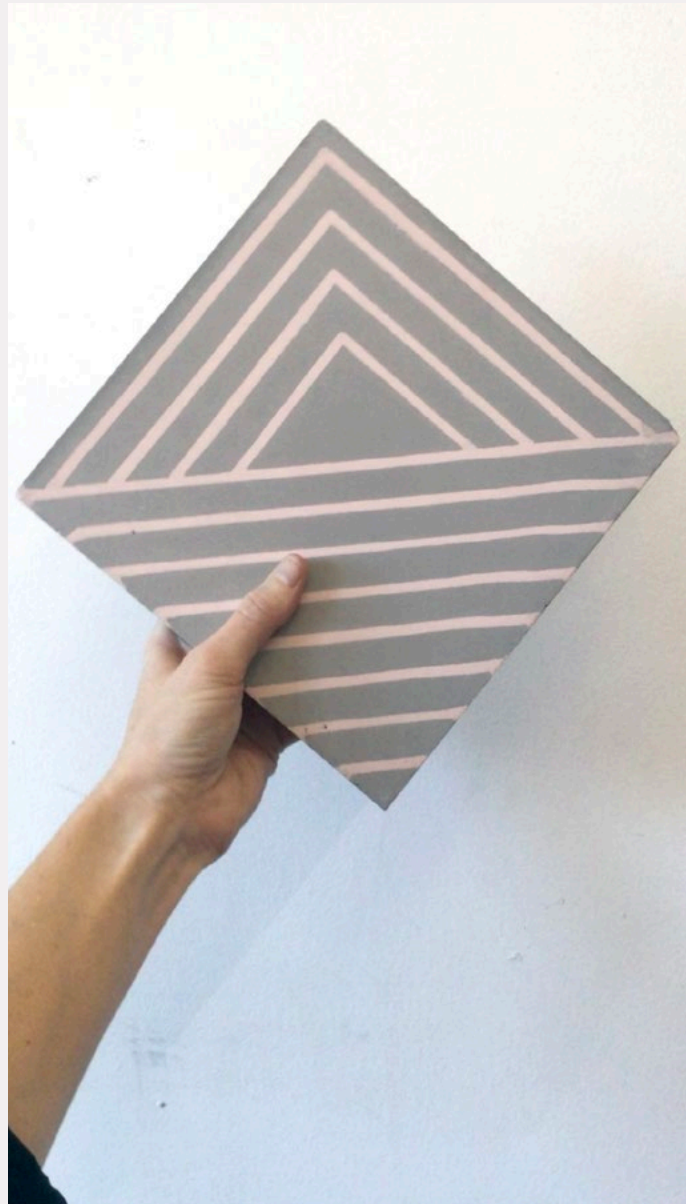

AVO designed a limited edition sunglass case for “Crafted for Lexus”. The exterior pattern is reminiscent of the iconic Lexus front grill movement and embodies the brand’s love for movement and adventure.

Ladies and Gentlemen Studio

The Ovis chair is a reinterpretation of a classic sling chair while using unexpected materials to celebrate each material’s innate quality. Leather sling designed and hand dyed by the AVO team.

ES20

In collaboration with Exquisite Surfaces for their 20th anniversary, AVO created a concrete tile for indoor and outdoor use alike. These tiles are hand crafted in Morocco by skilled artisans.

Sabah

A series of limited edition Sabah shoes made of custom AVO leather we hand-dyed in Brooklyn. Our leather then headed to Turkey to be hand-stitched by Sabah's craftsmen in Gaziantep.

Madewell

AVO collaborated on a limited-edition collection of hand-painted bags and pouches. Made of vegetable-tanned leather, each tote develops a rich patina the more you wear it and is hand numbered by the artist.

Google

OnHub is a router from Google that has an interchangeable shell. AVO's shell for Google is made from natural deer parchment, that has been hand painted and hard-formed around the OnHub body.
