Tethered

Tethered | Flicker

Life is full of migrations. This piece is inspired by the ebbs and flows of our day to day and the larger cycles we find ourselves apart of.

Commissioned in 2022 for a residential lobby in New Jersey, the mixture of colors speak to the migrating bird populations of New York and New Jersey that inhabit the nearby parks as they migrate south.

Based on experimentation and material integrity, each tapestry is designed by our founder Brit Kleinman. They are all one of a kind and embrace a visible touch of the hand.

We welcome commissions of all scales including large site specific installations.
