Cascade

Cascade | Mantle

Cascade celebrates the beauty of woven cloth and the rhythmic process behind it. This piece is made to look like its moving, flowing with the twists of leather and fringe bursting out from the selvage edge. The earth tones evoke the ground vibrating and shifting below you.

Based on experimentation and material integrity, each tapestry is designed by our founder Brit Kleinman. They are all one of a kind and embrace a visible touch of the hand.

We welcome commissions of all scales including large site specific installations.
